

**Youth For
Christ**

Youth For Christ (YFC)

is an indigenous, non-profit, non-denominational, non-racial Christian youth agency. It is active in many countries throughout Africa and affiliated with similar organizations in over 100 nations world wide. Committed to the holistic development and empowerment of young people of all communities and cultural backgrounds.

Our Strategy

Is to create an atmosphere where leaders of future generations are inspired and equipped to be actively engaged in selflessly transforming their world.

The Result

Our exceptional young leaders will be motivated and equipped to relate effectively to others for roles in their schools, families, churches, youth groups, communities and clubs. In addition the skills will impact their future roles in government, business, law, science, education, media, arts, ministry and any other institution.

ROI (RETURN ON INVESTMENT)

The investment of developing and empowering a Young Leader is far reaching and will impact many. It's like launching a stone into a lake; the stone hits the surface for only a moment, but the ripples configure and expand across the water. As each Young Leader proceeds through the Young Leader Development and Empowerment process, their training will be immediately translated into application as they implement coaching and mentoring in ministry to others. All of this will be accomplished with the support and accountability of their own mentor.

Our goal is not to make a difference in the world... our goal is to develop leaders to make the world different.

2 Year Process

The program is a 2-year process and is rigorous in its commitment. The design of the process is predominantly experiential and will be sustained relationally. The desired outcome is that commitment to this process will drive each Young Leader to action. To truly be effective, knowledge needs to be applied not just stored.

Purpose

Mentoring is a tried and proven process for preparing a young person for leadership. In the 2-year YFC ~ Young Leader Development and Empowerment Process, Young Leaders will be taken through a series of training, development and empowerment initiatives. During the process, they will be engaged in a guided mentor relationship with a veteran national leader. **At the end of the two years, each Young Leader will be specifically equipped to serve in a significant leadership role.**

Each of these young leaders is a potential world-changer. We can only begin to imagine the impact of empowering such a significant number of godly, committed, gifted young people into strategic leadership roles worldwide.

This is a huge undertaking by YFC and they need your support. The cost of putting each of these young leaders through the two-year

YFC Leadership and Empowerment Process is US\$4,000. All the young leaders selected will be required to raise \$500 of this cost, but we are trying to cover the remaining \$3,500 through sponsorships. We have recently launched the YFC Adopt a Young Leader program and are seeking individuals, couples, businesses, service organizations, churches and youth groups who will adopt a young leader and cover the \$3,500 cost.

Partnering with YFC

There are many young leaders in Rwanda and Zimbabwe in need of your support. **Please join with us to empower these strategic young leaders into significant leadership roles worldwide.**
